Sai Mithra Akuthota

Fresher

I'm a Java Trainee with a background in computer science, I am dedicated to gaining hands-on experience in java development. With a solid foundation in OOPs, Arrays, Exception Handling, and proficiency in popular packages like Lang and Mail. I am a fast learner, with a strong attention to detail, my goal is to build a strong foundation in java development and ultimately become a valuable asset to any organization I work with.
